

Rear-Door Loading on Tahoe Truckee Area Regional Transit Routes in Response to Coronavirus (COVID-19)

(TAHOE CITY -- Calif.) Beginning March 24th, we encourage all passengers to enter and exit from the rear (side) door of the vehicle. This measure is being put in place to reduce the interaction between TART drivers and customers while the threat of COVID-19 remains present.

The front door will continue to be used when the rear door is not feasible or when an ADA request need to be accommodated.
